RE: Treated Water

Dear Mr. Bowman:

We tested our 'clean' treated water in May shortly after our start-up. We tested again in October and the results are shown below. They are well below your permit standards and should never cause any problems.

As we have discussed, we are basically a zero-discharge plant other than sanitary sewer and boiler blowdown. We sent some treated 'clean' water down the drain, but very little. We use the water in our starch application almost 100%.

## Seattle Box Plant Test Results

Date	Sludge Metals		PPM		
	<u>Chrom(Cr)</u>	<u>Copper(Cu)</u>	<u>Iron(Fe)</u>	<u>Lead(Pb)</u>	<u>Zinc(zn)</u>
5/21/98	0.166	0.078	5.440	0.017	1.507
10/26/98	0.290	0.160	0.370	0.000	1.220

Sincerely,

Tom Craig
